MEMORANDUM FOR: Director of Central Intelligence

FROM: SA/DCI/IA

SUBJECT: Your Meeting with PFIAB, 10 March 1983

1. The following materials are provided for your meeting with PFIAB tomorrow:

- Prepared Statement. [] on the NIC Analytic Group prepared this miniature World Wide briefing. This presentation has been a standard part of your meeting with PFIAB. 25X1
- List of PFIAB Members. This list is included for your information.
- Recent Community Support to PFIAB. A List of recent CIA and NSA support to PFIAB are included for your information possibly to serve as a basis for your discussions.
- Topics of Interest. I have tried to anticipate other topics for which background information may be useful to you. I have included recently prepared Talking Points and current intelligence items on these topics. The IC Staff solicited from the Community topics that NFIB member organizations thought would be of interest for you to bring to PFIAB's attention. The item on narcotics and two from NSA were the only responses that came in.
- Recent PFIAB Issues. There are two: 1) PFIAB's report on the Intelligence Effort on International Financial Issues (see John McMahon's note that PFIAB was only echoing our comments of a year ago), and 2) PFIAB letter on the Hostile Intelligence Threat (this has not been acted on yet).

2. PFIAB requested and was given copies of last week's intelligence publications on El Salvador. These included several NIDs and a series of military situation reports initiated on 1 March.

3. Please let me know if there is anything else I can provide for you for this meeting.
